There'll always be a few of us  
To keep the barrooms busy  
And there'll always be fools like me  
With no place else to turn

'Cause liquor has the charmin' taste  
To keep you coming back  
For it's true I guess  
That some of us never learn

A crowded bar  
Can't ever change the past  
But from time to time  
We drown it in a glass

'Cause liquor has the charmin' taste  
To keep you coming back  
Well, it's true I guess  
That some of us never learn

A crowded bar  
Can't ever change the past  
Oh but from time to time  
We drown it in a glass

'Cause liquor has the charmin' taste  
To keep you coming back  
Oh, it's true I guess  
That some of us never learn, never learn
