Warm red wine you know that place where you take me  
some times  
Where my caress have wings and fly right off my  
shoulder  
Where I leave my cares behind and for a while peace of  
mind  
Help me friend of mine, wine take me away

Wine take me away where I can lose myself  
Take me where I won't even see the light of day  
It's my life and I wanna live, it's my will and I wanna  
give it  
Help me friend of mine, wine take me away

When my life becomes a grime and when I'm weary  
and tired  
Then I'll tell myself I need a short vacation  
I gotta leave this lonely town and you're the quickest  
way I found  
Help me friend of mine, wine take me away

Wine take me away where I can lose myself  
Take me where I won't even see the light of day  
It's my life and I wanna live, it's my will and I wanna  
give it  
Help me friend of mine, wine take me away  
Help me friend of mine, wine take me away
