No god will be above us to spread disease around  
Never do we bend for a lord that you've made  
We respond with our hatred on you  
No chance to walk the future  
Can't spread some made up words

He could not be able, his corpse is on the cross  
And never shalt we serve

With hate invade his kingdom  
We're the enemies of thy god  
Bring ruin as it must be  
We're the enemies of thy god

Eye for eye, the nemesis will bring dismay  
Bleed for god, consigned to hypocrisy  
His misery, on the cross he takes the blame  
Nazarene with no doubt we'd kill again

Soon you'll face the truth in a grave all alone  
As he said "a religion for you"  
Witness and behold by your hands you're deceased  
Laughing in scorn as you're buried alive  
The revolt shall cripple the faith  
Know now as your idols will burn

Before me there is none  
As there is no sense in god  
We'll have to put an end to his lie
