I open my eyes  
Today is the final day  
The sounds of my shots will fill the silence  
The loser and his vanquish  
You're having your special place in my nightmare now  
We, the gods are having fun now.  
Do you know what I hate? People, I hate  
Hate is the greatest thing  
Less then one hundred,  
You alone like me will be spared  
Nine already in my mind  
Do you remember teacher  
The sense of power, accomplishment?  
Do you want to talk about that now, teacher?  
Why? Why do you ask me that now?  
Have you ever cared for how I felt, mom?  
Look at me now  
God is coming, mom look at me  
Everybody look at me, I'm your creation  
Where's your indifference now... ?  
This is mine
