"Garden In My Room"

Visit "[Garden In My Room](#)" on MotoLyrics.com

There's a garden in my room, would you like to take a look?

There are fascinating things you'll find there.

If you dare to come inside there is nothing I will hide.

Come where there is sweet perfume in the garden in my room.

There's a garden in room, it has apples sweet and ripe.

If you'd like to have a taste I'll let you.

Cherries red as they could be, such amazing things to see.

Everything is in full bloom in the garden in my room.

It's not far I can take you there, where the air is cool and dry.

Lay your head on my flower bed and I promise you you'll never ever want to say good-bye.

It's not far I can take you there, where the air is cool and dry.

Lay your head on my flower bed and I promise you you'll never ever want to say good-bye.

There's a garden in my room, would you like to take a look?

Rest your body on my velvet roses.

Once you've tasted my delights many days will turn to nights.

There is nothing you won't do for the garden in my room.
