Visit "[The Ornithopter](#)" on MotoLyrics.com

It's day and in the sky fly those evil birds of prey  
Silver wings and burning eyes, they've come to take  
today  
Come man, if you can, we really need you now  
The Ornithopter's come, he's come to take you now

The Ornithopter's come to take my life  
The Ornithopter's come to take your life  
The Ornithopter's come to take our life  
The Ornithopter's come to take my life

It's night and in the sky still those evil birds of prey  
Fire lance burning bright but they're too far away  
The man from Granbritan has come to take you now  
The only thing we know is it's all up to now

The Ornithopter's come to take my life  
The Ornithopter's come to take your life  
The Ornithopter's come to take our life  
The Ornithopter's come to take my life
