I walk around with my head facing down  
Stoney pleasure within my surround  
I talk today and I sing with the night

One thing that I can't explain  
Inside my lungs this blistering pain  
I struggle on with no thought for myself

I've been down all day, I find it hard to get up  
I've been down all day, I find it hard to get up

She's got long blonde hair, ruby red lips  
Three tattooed names on her upper hip  
Long blonde hair, ruby red lips  
Three tattooed names on her upper hip  
Three tattooed names on her upper hip

I'm happy to live my life this way  
On the track, I don't think I'll sway  
One day I'll know the time is right

Pick me up off the hard ground  
Ride me to where we can't be found  
Into space that's where I go now

I've been down all day, I find it hard to get up  
I've been down all day, I find it hard to get up

She's got long blonde hair, ruby red lips  
Three tattooed names on her upper hip  
Long blonde hair, ruby red lips  
Three tattooed names on her upper hip  
Three tattooed names on her upper hip
