You've got a big mouth  
With big words spilling out.  
Come here, give me a kiss  
With vocabulary lips.

We all take out loans.  
We are breaking bones.  
Raise your drink high,  
Keep your head hung low.

You've got a big mouth  
With big words spilling out.  
Come here, give me a kiss  
With vocabulary lips.

We all take out loans.  
We are breaking bones.  
Raise your drink high,  
Keep your head hung low.

Signal's break up like long distance lovers  
And scardy-cat kids hide under covers.  
Systems break up like long distance friends.  
Who wants to be real?  
It's more fun to pretend.
