Look my eyes this is the time
To see the truth
What we did we choose to live
Separated in countries
Misery wars poorty and more
Countries give to us
There's no where to hide, since you born
You are a part of this

[Chorus:]

I want to be citizen
Of this earth no countries
No more frontiers

Free now I want to be

All together can to solve
The hunger of all
Without countries no military forces
Will have no wars
Only one nation with different cultures
Can live in peace
I know that is hard, change your mind
Together will be free

[Chorus x2]
