We're not aloud to fall in love,  
'Cos circumstances mess things up.  
Just a kiss it's all it took.  
Sent us flying can't get enough.

(chorus)

It's the first time I ever showed all this love.  
And you know you're the first one, to have it all.

And we both hope, that this feelings won't change,  
What makes it special is it works both ways.  
So keep a smile on your face.  
And maybe all those circumstances slowly fade away.

(chorus)

It's the first time I ever showed, all this love.  
And you know you're the first one, to have it all.

We'll fly away to the unknown (oh yeah)  
We'll take chances on we'll never know.

Chorus 3x

It's the first time
