[Music: H. Wolter; Lyrics: T. Bullet]

Been thinking bout the promises
You kept from me for so long
I tried so hard to make you stay
And all I can do is wrong
But you could never trust me
I see you found your way
My heart won't take this kind of treason
Don't wanna face the day

Going down in desperation
Just can't find my way back home
Going down in desolation
Just can't find my way back home

You say you never cared too much
For someone who tried so hard
But when your life has turned to grey
You're seeing that you won't go far
Don't think about tomorrow
Just think for us today
You know you'll need a better reason
Don't make me feel this way

(I'm) Going down in desperation
Just can't find my way back home
Going down in desolation
Just can't find my way back home

[Lead]

Going down in desperation
Just can't find my way back home
Going down in desolation
Just can't find my way back home
