[Music: T. Bullet; Lyrics: T. Bullet]

Hard times come and go
You can't be taught to survive
It's not easy so you can't
Waste all your precious time
Each day you wake up and no answers are there
So keep on trying stop your lying
Hold on I know that you can

Time just goes on
You know it's short don't wait too long
Time just goes on you must be strong

We all have thoughts of giving up
On this torture ride
The answer lies inside
Just take hold of your pride
Giving all you've got
And they'll break you for more
But keep on trying stop your lying
Hold on I know that you can

Time just goes on
You know it's short don't wait too long
Time just goes on you must be strong
You must be strong 'baby I can feel it 'You know ya
gotta be' Yeah yeah
Time just goes on
You know it's short don't wait too long
Time just goes on you must be strong
You must be strong 'baby I can feel it 'You know ya
gotta be'
