In these towns where cars are parked  
Whispered secrets in the dark  
You say you want me as your lover  
But noone's to know, keep it undercover

I'm gonna let the dogs loose  
I'm gonna sic'em on to you  
I'm gonna let the dogs loose  
Ain't got a chance when I'm trough

With you it's one step up and two steps down  
Just a loser's game of gettin' fucked around  
You think it's right being so wrong  
Won't listen to me so listen to this song

I'm gonna let the dogs loose  
I'm gonna sic'em on to you  
I'm gonna let the dogs loose

Ain't got a chance when I'm trough no chance

You're never giving me an answer  
Giving an answer for this hopeless romancer  
I'm always waitin' for a shot  
Waitin' for a shot of the love that you've got

I'm gonna let the dogs loose  
I'm gonna sic'em on to you  
I'm gonna let the dogs loose  
Ain't got a chance when I'm trough  
I'm gonna let the dogs loose  
I'm gonna sic'em on to you  
I'm gonna let the dogs loose  
Ain't got a chance when I'm trough  
Just take your class  
And stick it up your ass woman
