[Music: R. Derringer; Lyrics: R. Derringer]

When we met it was perfection
You and I needed protection
Well, You held me and I held you
We found love that grew and grew (Oh yeah)
Time has brought a strange constriction
Now our lives are filled with friction
But all I ask is that you try
Save our love don't let it die

We had dreams we had each other
Don't hold on so tight
Give me room to breathe now, mama
Help me make it right

We had dreams we had each other
We had life you were my lover
But all I ask is that you try
Save our love don't let it die

You've got to loosen up your grip
Don't hold on so tight
Give me room to breathe now mama
Help me make it right
You've got to loosen up your grip
Don't hold on so tight
Give me room to breathe now mama
Help me make it right (Make it right)
