Alone, alone in the dark  
I want to forget, I close my eyes  
I feel the cold, the cold of night  
Now fate, my fate is mine

I might believe  
Life is a dream  
When black is white  
No tears no cry  
People show that misery is sad  
Symphony

Silence look at the stars  
Beautiful dreams flying in the sky  
I feel the gloom, the gloom of night  
This is the end, my dying time

I might believe  
Life is a dream  
When black is white  
No tears no cry  
People show that misery is sad  
Symphony

Grip in this chains  
There's no escape  
Fear surround me heaven can't wait  
Fire in the sky  
On edge of time fear of darkness  
Embrace me

I might believe  
Life is a dream  
When black is white  
No tears no cry  
People show that misery is sad  
Symphony
