Time please take my hand
Reality is too hard for my brain
There's no escape from this life
Scream my pain, can you see in my eyes?
Please help me!!!

Time please help me I'm here!
Save me and my dying dream
You'll hear my cries in the wind
See my tears, lost memories
Time!!!

My sadness call me to die
Resignation is my only way
My joy is turning to disgrace
Fear of this silence I still feel the pain
Again, I still feel the pain
Again, I still feel the pain

Time please take my hand
Reality is too hard for my brain
There's no escape from this life
Scream my pain, can you see in my eyes?
Time!!!
