"Vision Of Death"

Visit "[Vision Of Death](#)" on MotoLyrics.com

Die

And the creatures of the night
They're flying around the light
Like shadow in the dark

Die

When the master calls your life
And you close slowly your eyes
You will not see the sun
It's a vision of death...

Life

It's not real it's just a dream
And now shows reality
And your soul flies high in the sky

Time

Slides fast over your life
But the torrents about to die
No more suffer no more pain
It's a vision of death...

Die

And the creatures of the night
They're flying around the light
Like shadow in the dark

Die

When the master calls your life
And you close slowly your eyes
You will not see the sun
It's a vision of death...
