Is there something I was gonna tell you?
Is there something I was gonna say?
If I had it, I guess, I forgot it.
It's gone, it's all slipped away.

Oh my love was supposed to make you happy,
Supposed to make you happy all the time.
Oh my love was supposed to make you happy,
Supposed to make you happy all the time.

Is there something you're willing to wait for?
Is there something you long to be?
Is there something I can do to change it?
Didn't it used to be me?

Oh my love was supposed to make you happy,
Supposed to make you happy all the time.
Oh my love was supposed to make you happy,
Supposed to make you happy all the time.
