"Trouble Over Me"

You're not my boyfriend, I don't want a boyfriend
Just make a little trouble over me
In your kitchen, on the way to your window
Walking down your hallway
Make some trouble over me

I'll play hard to get but if I mean it
Just make a little trouble over me
Leave me alone. Do what you want to
See, I got some things on my mind

CHORUS

Don't treat me bad, that's not what I'm asking
Look out your window, everyone's in line
Paper truth in strings, hearts and broken things
Love goes for quite a price
I don't want you for mine. Oh, but don't we get along
fine

Tell me a secret before you meant to
Worry what I'll do. Trouble over me
If you touch me, it's only by accident
Oh, wrists and fingertips. Trouble over me

CHORUS

SOLO

In your kitchen, on the way to your window
Walking down your hallway, make some trouble over
me
Button my coat up, stumble with your words some
Let me think that you might go to a little trouble over
me

Just a little
Just a little trouble
Just a little trouble over
