

Thy Infernal "Armageddon"

Visit "[Armageddon](#)" on MotoLyrics.com

Can you hear the screams?
The screams of your tormented messiah?
-and can you see the fires of Satan,
Raping the kingdom of god?
Merciless slaughter of innocent souls,
Souls that found their glory in him,
He who was fallen to SATAN!

Come, see what shall be
Behold the great storm of extinction
Alas, ARMAGEDDON has come
To rape, to kill, to slaughter Jehovah's creation
-and can you hear the screams of disciples being torn
asunder?
Can you see the pearly gates of peace smeared with
the blood of Jesus?

Come see what shall be on this glorious night of
extinction
Alas, ARMAGEDDON has come
To rape, to kill, to BUTCHER GOD'S FUCKING
DOMINION!

Countless mounds of corpses lay dismembered
In fields of blood-soaked battle, the ravens start to
feed
Upon the steaming entrails of our slaughtered enemies
Shining in the pale moon's light
Of ARMAGEDDON

-and still the fires burn within the golden walls of
heaven
-and still the feeble man of god bleeds
- and a grace once triumphant, now shall be forgotten
Never to be remembered
NEVER.
