

Thy Infernal "Dark Wings Unfurl"

Visit "[Dark Wings Unfurl](#)" on [MotoLyrics.com](#)

Night of apocalyptic insemination
Deliverance of the demon seed
Dominating Diabolic fornication
Assaulted virgin flesh defiled, torn and bleeding
Pleading screams for mercy fall upon deaf ears
By the light of the full moon
The Antichrist, born of flesh
Darkness shall be unleashed upon the earth
When DARK WINGS UNFURL
The evil incarnation-demoniac arise!
Satan's earthly spawn
Holocaust, darkness and doom await

ATTACK!

Ascend to the gates of heaven
Wretched offspring of the beast
With countless hordes of demons
We begin the orgiastic feast of blood

Behead the creator of angels
Stain red his golden streets
Impaling each disciple
Nailed and hung to suffocate

Horned battalions of the evil one
Ripping flesh and bone asunder
Among scattered wings and shattered limbs
Of ANGELS BRUTALLY DISMEMBERED
