On the eve of the apocalypse war – the earth glows  
grimly in the light of the moon  
Wolves begin howling to the cold winters night  
Hungry for the carnage and bloodshed left by the  
death storm

WARLORDS OF HELL – like the words prophesized  
Descending on the black battle steed from blood red  
dripping skies  
With weapons in hand, spreading death across the  
land  
Spilling the blood of everything not controlled by  
Satan's hand  
With war, death, famine and disease – the might of  
ARMAGEDDON shall bring the world to it's knees  
Exterminating scores with serrated bladed swords  
The horsemen battle on, RAPING AND KILLING ALL

With tumultuous fury and a monstrous stride  
Warriors upon horses forge onward trampling bodies,  
crushing their bones  
Storming through mountains of corpses – with blood  
drenched armor and thundering hooves  
Snorting in grim ecstasy the horsemen charge on in a  
whirlwind of metal  
Merciless storm of demise – the Warlords of Hell!  
THE WARLORDS OF HELL!

A dismembering orgy of bloodshed and pain bestowed  
upon humanity  
Pounding warhammers and sharpened steel blades  
From which NO LIFE CAN ESCAPE – severing limbs,  
torsos and heads  
Frenzied weapons lacerate drowning the earth in a  
great sea of blood – only to KILL AGAIN  
THE WARLORDS OF HELL

Massacre, TOTAL WAR – ripping and tearing apart –  
limb from limb, flesh from fucking bone  
The gods of war attack – scourge of evil horde  
Horde of death, hell and hate – consecrating the  
genocide

With human blood and demonic storming wrath  
Satan's warriors attack  
STRIKE OF THE FUCKING BEAST

There is no escape from the reaper's blade  
Satan's warriors attack  
Feel the steel rip through your flesh  
and die by the  
WARLORDS OF HELL

Charging, rampaging legions slaughtered by our storm  
One by one, ten by ten, falling to the ground  
swords and steel stained crimson red  
Shining in the fires light  
corpses being set ablaze,  
The pyres will be burning tonight!
