Storm of vengeance, steel and fucking evil
Satan's demons stalk the earth
With violence, spikes and bloodstained, wartorn
leather
We rape the world with our GRIM SATANIC METAL OF
DEATH
Destruction and total ARMAGEDDON
We attack the Christian hordes with pure demonic fury
And hate for all life, we are the reaper's weapon
The storm of death that puts fear in the hearts of all
men

WOLFSTORM

Like a hungry pack of wolves, we hunt and slaughter
the weak

With our axes of battle and our sabers of doom
We commence the SATANIC METAL HOLOCAUST
666

With spiked clubs in our hands, and SATAN'S WRATH in
our hearts
Desecration in our eyes, and ARMAGEDDON in our
veins
We stab at the face of god, and SMASH DOWN THE
GATES OF HEAVEN
We impale his fucking Angels, and crush all with our
SKULL FUCKING METAL!

Beneath the inverted cross of the Antichrist we hail
We set the world ablaze with our abominating rituals
Of distortion, brutality, and apocalyptic visions
WE ARE HELL, WE ARE SATAN'S SONS

Berserker hordes with nails and sharpened gauntlets
the plague of the earth
We are the metal storm
We are the WOLFSTORM
WE ARE THE WOLFSTORM.
