

Thy Primordial "Tyrannize"

What has in truth already vanished is never to return
What once has failed will not rise again, fallen forever

Heavens gate will fall, the creations will undo
And from the heights, the reign of antichrist
Spawns the seed source of evil
Raise the beasts upon the face of the earth
Mayest the angels fall when demons rise

Angels fall when demons rise
The rise and the fall!

For endless years, will hold the famed torch
In it's name evil ruin shalt fall on the "great"
It's the fiend that shalt cause the infernal terrors
Of him who rules on the most terrible throne ever
known

Angels fall when demons rise
The rise and the fall!

The reign of antichrist
Spawns the seed source of evil
Raise the beasts upon the face of the earth
Angels fall... demons rise

Sacerum Opulentus Obscurus Obviam
The great king of terror has come
Malum Accedo Quam Coelestis Exercitus Mortuum
Too great a faith shall betray the monarch

The reign of antichrist
Spawns the seed source of evil
Raise the beasts upon the face of the earth
Angels fall... demons rise

For endless years behold the famed torch
As evil ruin fell beyond the comprehensions of man
Infernal breeding with terror crushed, teared that heart
from out of the breast
Released the chains of the defeater's scorn, to death
decreed

By crucifix thou wilt cross what we triumphantly won
Death creator, demon spawn, angels whisper now
forlorn
