Burn the church
Rape the priest
Fuck jesus christ

Smash the face
Feel the blood
Kill the christians

Destroy what
Thay brought here
Hundreds of years ago

Give them what
They deserve
Kill the christians

I can't follow jesus christ
The biggest liar of the light
I don't need your fucking bread
Share that with the sheeps

Thousands of heathens were murdered
By christian hands
And what they have told us
Bastards of Undivine god

Lies, Lies, Lies
Kill the christians
