"In The Name Of"

True freedom is feared by those
Who oppose equality
To conquer and to divide
Through their lies

Assimilate or you die
Is their message that they try
To imprint into our hearts
And our minds

Heresy - pretext war - fallacy
We'll stay three-hundred days

Veil of corruption has tried
To blind and bound us with lies
Within fires of revolt
Freedom rings

Heresy - pretext war - fallacy
They'll prey three-hundred days

We will burn in the name of...
Lead us to the pyres of redemption
Our convictions give us the
Volition to walk into the flames

Heresy - pretext war - fallacy
We'll pray for three-hundred days

We will burn in the name of...
