Preach, all our doctrines raped to life
Weak, and fall clones gangrene disguised
Sodomize, fresh order possessed shall rise

Purge, disperse
Jacinth soft flesh undressed

Three tailed beast of trinity snared in scales of
hellhound
And drujis like worms spawned in stigmas of redeemed
ground

False prophet, compassion bled from mother whore
False prophet, mere machine of icon war
Invoke, serpent core
Invoke, morgue pits of hades shall rise

Purge, disperse
Flay slaves of pest infect

In purest forms of ardours laws
When perdition calls my nimbus falls
Allegories of past unraveled
Lambs shall slay the shepherd

False prophet, compassion bled from mother whore
False prophet, mere machine of icon war
Invoke, serpent core
Invoke, knighthood of the nameless one, rise
