"Reveal Resolution"

Born into an age of darkness
Eternally we're still blind
Torn apart this world of conflict
The suffering is disguised

One love so speak out
From thy heart breathe of life

I close my eyes and search for answers
The prophecies unfolding

Why must we seek retribution
Reveal resolution

Searching to cure thoughts of disease
The suffering the children

With love to reach out
Bless my heart guide this life

Now I must move into darkness
And use faith as my guide

Suffer the loss yourself be saved
But only as through the flame
To pave the way with the voice
To make a change

The suffering of mankind
Is forced underground
