

Thy Serpent

"Was And Is To Come"

Visit "[Was And Is To Come](#)" on MotoLyrics.com

Life has become commodified
We are the slaves of the machine
Our environment has been reduced to fuel
In a place where time is money
Which makes life become money

We must change this course
This is not an armed struggle

We will not use corruption
To replace corruption

We must awaken

Blood of the wicked will flow
Righteous hearts will overcome

Few are chosen
Many called
Until then
I dream of Zion

The once visible will become extinct
These transformations are peril
We must evolve to a global understanding

We must change this course
