

Thy Will Be Done "A Solemn Oath"

Bringing love and compassion
Breaking down regimes
Dividing the people with
Walls that are not seen

Justice for the voices unheard
Vigilance for all that preserve...
Deliver the outcasts and the rejected
We must bring the children
Hope of ascension

Preserving Live
This Is Our Hope

We Give Our Honor
What's In Our Hearts Forever

Vindicate the suffering
Raise up the bowed down
With our voices we will give
Revolution sound

We must promote dignity of all life
There will be no universal transformation
Until the relieve the suffering
