Through the grey fields of sensation, hammering.  
Neon shock through spinal cords, hammering.

Rust shell, the armoured hell. Exploding towards the  
inner still-life  
Lifeblood changes it's streaming paths, shooting  
through flesh,  
Defence

Metabolic systems overload  
Mindscape trash, they cannot decode  
Generating illness to get rid of the skin  
The illness to kill the exo-skeleton

Through the grey fields of sensations, hammering.  
Neon shock through spinal cords, hammering.

Exo/Exo [x2]  
Skeleton/Skeleton [x2]

*You die through me [x4]*

*Rust shell, Armoured hell. Your masses cannot outshine  
me  
Crushed code, worn out system. Your mass cannot  
outshine me*

*Generating illness to get rid of the skin  
The illness to kill the exo-skeleton  
Generating illness to get rid of the skin  
The illness to kill the exo-skeleton*

*Through the grey fields of sensation, hammering...  
Neon shock through spinal cords, hammering...*

*Exo/Exo  
Skeleton/Skeleton*
