"We Own The Night"

Weâ€™re burning with the stars
We shine so bright
Like Jupiter and Mars
We own the night
Keep running with the fires
This time is ours
Weâ€™re dancing through the clouds
We own the night
Something in the air makes me feel so good tonight
Release the energy and take it for a ride
Make it to a run speed, pushing it to the edge
I am supernova and tonight I wanna forget!
If it feels good do it
Wanna fall off and do it
Put your body in sway
We own the night, night, night, night, night, night
Weâ€™re burning with the stars
We shine so bright
Like Jupiter and Mars
We own the night
Keep running with the fires
This time is ours
Weâ€™re destined through the clouds
We own the night
If it feels good do it
On the floor do it
Put your body into it
We own the night,night,night
Shinning, we shinning with desire (x3)
Shinning with desire
