When it seems
Like the world around you's breaking
And it feels
Like there's no one else around you
And it's quiet
There's a silence in the darkness
And it sounds
Like the carnival is over

As you walk
In the crowded empty spaces
And you stare
At the emptiness around you
You wanna go
To the city and the bright lights
Get away
From the sinners that surround you

Cause I will be there
And you will be there
We'll find each other in the dark
And you will see
And I'll see you too
Cause we'll be together in the dark

Cause if it's coming for you
Then it's coming for me
Cause I will be there
Cause we need each other in the dark
And if it terrifies you
Then it terrifies me
Cause I will be there
So we've got each other in the dark

As I look into the sky
There's sparks bright as ice
You want me to take you over there
I want you to stay with me
Cuz you're not the only one
The only one

No, no

Don't worry
You're not the only one

Cause if it's coming for you
Then it's coming for me
But I will be there
Cuz we need each other in the dark
And if it's panicking you
Then it's panicking me
But I will be there
So we've got each other in the dark

In the dark
In the dark
We'll need each other in the dark

In the dark
In the dark
We'll hold each other in the dark

Now we're saved together in the dark
Cause we've got each other in the dark
