=====

All this time
I know some day you'd need to find
Something that you left behind
Something I can't give you
All these tears
And like a light love disappears
But hearts are good for souvenirs
And memories are forever
All this time
All in all I've no regrets
The sun still shines the sun still sets
The heart forgives the heart forgets
But what will I do now with all this time

One more kiss
Even though it's come to this
I'll close my eyes and make a wish
Hoping you'll remember
All this time
All in all I've no regrets

The sun still shines the sun still sets
And the heart forgives, the heart forgets
But what will I do now with all this time
Say goodbye
Apart we'll make another try
But don't be sorry if you cry
I'll be crying too

All this time

All this time
All in all I've no regrets
The sun still shines the sun still sets
And the heart forgives, the heart forgets
But what will I do now with all this time
What will I do now with all this time
