I wanna be with U tonight
and every other night
from now until forever

I was just standing there only thinking
you were lookin' in my direction
pulling me closer with your intention
no where to turn from this love emotion

And I can't escape you
And you can't escape me
And now you belong in my arms

(Chorus:)

I wanna be with U tonight
and every other night
from now until forever
I wanna be with U tonight
I don't need a reason why
we were meant to be together

I was just looking for someone to talk to
You were looking for my surrender
I didn't know that my heart was so empty

lyin' to myself I was just pretending

And I can't escape you
And you can't escape me
And now you belong in my arms

Repeat Chorus

I was just standing there only thinking
you were lookin' in my direction
pulling me closer with your intention
no where to turn from this love emotion

And I can't escape you
And you can't escape me
And now you belong in my arms

Repeat Chorus Out
