Sometimes there's a time you must say goodbye
Thought it hurts you must learn to try
I know I've got to let you go
But I know everywhere you go
You'll never be far
Cause like the light over bright star
You'll be shining in my life
You're gonna be right
Chorus
Here in my heart
That's where you'll be
You'll be with me here
Here in my heart
No distance can keep us apart

As long as you're here in my heart
Won't be any tears falling from these eyes
Cause when true love never dies
It's stay alive forever
Time can't take away what we have
I'll remember our time together
You may think our time is true
But I'll still have you
Chorus
I know you'll be back again
And till then
My heart is waiting
Chorus
- Chommar, Ipiet, Ira, Hani -
