I Luv How You Feel

This life's incredible  
It's so impossible  
One look, one touch turns it all around  
I've been a naughty girl  
Upside down in a mixed world

Foamin and stumbling and fallin to the ground  
You lift me up  
So I can kiss all my tears goodbye  
All of the stars align when I'm with you

I luv how you feel  
I luv how you feel  
You feel

I like the thought of love  
I'm hooked can't get enough

I won't get high on you  
I feel you all over me  
I feel you take control of me  
You're everywhere I turn you're all around

You lift me up  
So I can kiss all my tears goodbye  
All of the stars align when I'm with you

I luv how you feel  
I luv how you feel  
I luv how you feel  
You feel
