(phillip damien)

Our love I could never live without it
Our love call my name and I'll be there
Our love no one here could ever doubt it
Our love your heart our love

Time has said that when we're together
There won't be a never to keep us apart
I believe this love will grow stronger
Our days will grow longer
Your love's in my heart
There were times when I thought that we would never
be
Two hearts that beat as one
Now I know that it's real
The way that I feel
And baby I want to say that you make my life a joy

Our love I could never live without it
Our love call my name and I'll be there
Our love no one here could ever doubt it
Our love your heart our love

Now I know that we'll be together
Forever and ever 'till the end of time

Here's a love that burns like a fire
Yet filled with desire
And sweeter than wine
Could it be that we are living in a fantasy
Some say it can't be true
Now I just can't conceal
All this passion the thrill
Come let me show me that I love you
It's true I do

Our love I could never live without it
Our love call my name and I'll be there
Our love no one here could ever doubt it
Our love your heart our love

My love and your love
I said together not without it
Not anyone could ever doubt it
Said our love together forever and ever
In love the sky I fly above
And I can't fly without our love
