(phillip damien/mark wilson)

There's no other, there could never be
I'm so in love baby can't you see
Please stay here right next to me
There could never
Be another there could never be
My heart was locked, 'till you turned the key
And your love has set me free
There could never...

Be another person in this world
Who could make me feel this way
You're always open and so full of joy
I'm trying to find the words to say

Like I love you
I need you in my life
Forever please don't turn away
I need you to stay - always
So baby can't you understand that...

There's no other, there could never be
I'm so in love baby can't you see
Please stay here right next to me
There could never
Be another there could never be
My heart was locked, 'till you turned the key
And your love has set me free
There could never...

Be a feeling in this heart of mine
That would ever bring you down
Because the love you gave, it made me free
It brought me to this higher ground

Now yes I love you, and I need you, in my life
So please don't go I want you to stay
So please let me say
I need you - and I want you baby
