Music: Fredrik Thordendal, Tomas Haake

Lyrics: Tomas Haake

Winds that shine a bright, blinding dark. Kerosene  
flames so cold they crack  
Suns that blow becalmed twisters. Ferocity sleeping.  
Nothingness stacked  
Intestines worn to shield the inward limbs. Screams  
unheard. Deafening thoughts  
Levitating ground. The solid water burns. Liquid  
stone. The immobile turns

Corrosion soothing the hurt within  
Surroundings reaching to touch your skin  
Progress in stalemate. Death is alive  
Eyes and mind glint - Glints collide

Pains sending shivers of well-being down your spine.  
Sounds of healing crack your bones  
Lamentation carving into smiling faces. Surrounded by  
everyone, still you're all alone

Wormholes set as halos over sinners skulls. Leaves  
chasing the fallen air away  
A lifetime of needle-eyes too wide to escape, where  
honesty lies and angels betray

Incisions mending the wounds within  
Surroundings breach the surface of your skin  
Progress in static. Life has died  
Eyes and minds glint - Glints collide

[Lyrics from 3:02-3:30 missing]

Reincarnation trapped in a life span.  
Corpses bolted to the ground arise  
Omnilights flooding your world with their darkness  
As your reflection turns its back to your eyes

You've entered your self-created antiparadise  
Your universe processed and trapped in jars  
Never-ending insanity

Down in the hell of mind, where glints collide
