"Soul Burn"

Inner perception trapped in a soul cage
Human wreckage I leave my liquid face
Who am I sense blurred?
Who's my mind in this life obscured?

Visual progressions leave me no peace
Subliminal merger clutch the fence of needs
What's there in desperation?
What's real flawless confusion?

Void of emptiness reign my truth
Before my eyes flashes of youth
Memory nuances pass where's my life?
Frayed pictures mass

Insidious deception feelings fade
Ree nous mirrors I praise the blackened day
What am I to reality?
What's in line subsequently

Forever turning through a lifetime
Endless burning of soul and mind
(Step by step)
I'm taken through the past
To burn in fear of lies
I'm lost mouldering
Oblivions grasp makes my soul burn
Burn

This astray mind has sieged my soul
Forever chained to this tearing cold
I never tell the truth from lies
Disbelief covers my eyes and this is
I'm lost mouldering
Perpetual pain in this soul burn

Pieces to me strange wrapped up in disguise
Reflections of myself in another life

I see it vague before my eyes
Pictures drawn of naked bare lies
It makes no sense to live this mess

Constant until I find my rest

Enemy within a soul in flames
Gaining it's pulse breeding inside
Pressure increase drowns my belief
As I unveil myself in me

Burn, burn
