I promise you better things from now on
I'm gonna love you like my own son
No more then me that you use to meet out here
At night I swear, I swear

I'm gonna love you like my very own son
Like my very own blood
I swear
I'm gonna love you like my very own son
Like my very own blood
I swear
I will love you right there

Sometimes I fear these hands of mine
Let us never mention this again

I'm gonna love you like my very own son
Like my very own blood
I swear
I'm gonna love you like my very own son
Like my very own blood
I swear
I'm gonna love you like my very own son
Like my very own blood
I swear
I'm gonna love you like my very own son
Like my very own blood

I swear

I'm gonna love you like my very own son
Like my very own blood
I swear
I'm gonna love you like my very own son
Like my very own blood
I swear
And I'm gonna love you like my very own son
Like my very own blood
