(EvilAnte)

Braindamaged zero
Wrapped in plastic smiles
Fuck your skinnhead hero
The devil in disguise
Man trew cat from balcony
Tell me it's no dream
So profane, but still it's blasphemy
To ever heed your scream
Fear of life, Fear within
Let the harvester begin
Fear my time fear my name
Brand new letters, still the same
Fear of wife, Fear of sin
Let the madness begin
Fear the crime, Fear the name
Brand new letters, still the same
Psychotic liarÃƒÂ³
Party begins at noon
No smoke without fire
Burn it out so soon
Walk among polluded plains
Still on hallowed ground
Let the venom fill your veins
To the needle bound
Fear of life, Fear within
Let the harvester begin
Fear my time fear my name
Brand new letters, still the same
Fear of wife, Fear of sin
Let the madness begin
Fear the crime, Fear the name
Brand new letters, still the same
With your numb mind you can not see
Blinded by your own visions
Hiding behind a glass mask
Of what you want to be
Hiding behind what you want to be
I can see you walk the path of misery
Your faith is pre set
A warning was made
But you failed to notice

The wisdom of a friend
The wisdom of a friend
Fear of life, Fear within
Let the harvester begin
Fear my time fear my name
Brand new letters, still the same
Fear of wife, Fear of sin
Let the madness begin
Fear the crime, Fear the name
Brand new letters, still the same
Live fast
Die young
Become a toxic waste
