-----  
HE LIKES THE SUN

Tanita Tikaram  
-----

Some say the world goes crazy  
It's summertime  
I say I'm feeling lazy  
Hammocks in mind  
And I can't change a thing  
So I won't stay around  
If you can feel so hot  
Why don't you feel for me?  
If you can feel so much  
Why don't you let it out  
And let me be alone again?  
I keep watch, that's alright  
'Cos it comes in this real night  
He likes the sun  
See the cornered clown  
He likes the sun  
Let us waste this town  
And when it rains  
You feel the click in this heart  
And that's when the pain in mine will start  
And that's when the pain in mine will start  
I'm used to growing older  
And feeling down inside  
But yes, I know, well someone told  
You should have seen him cry  
Well that's not my life  
I'm tired of chip inside and playing bronze for cool  
Y'know that sometimes light  
And sometimes you can just be that fool  
Who can really say?  
If I'm cross --- it's a joke  
If I'm lost --- let it go up in smoke  
He likes the sun  
See the cornered clown  
He likes the sun  
Let us waste this town  
And when it rains

You feel the click in this heart  
And that's when the pain in mine will start  
And that's when the pain in mine will start  
Jump right out of your grass colours  
And make like you were easy prey  
And cheer us solemn of a possible  
Is it possible?  
I could really play, could really play  
All these things I say  
Though nnot torn inside, though not torn  
You just lie, lie low --- lie low for me  
I'm not in deeper waters --- where everyone will claim  
We used to know the daughter --- throw it away it's not  
such a shame  
If you're feeling blue  
And I like icy looks and great command  
He likes the way I'm true  
But I know inside  
This is a real life sham --- but that's okay  
And this song can't be sued  
I assume --- you get up and renew yourself  
He likes the sun  
See the cornered clown  
He likes the sun  
Let us waste this town  
And when it rains  
You feel the click in this heart  
And that's when the pain in mine will start  
And that's when the pain in mine will start
