## "808 Heaven"

Go into the spirit of night  
Air surrounds me  
make believe in all the way  
lights around me  
Break down all the pieces too  
Lift you up high  
Dancing with the fire flies  
Pop becomes life?

I cant take it why don't you get up and listen  
put on the base I'm gonna take on a mission  
Pump, pump it up play it real loud  
jumping up and down come up from the ground

I cant take it why don't you get up and listen  
put on the base I'm gonna take on a mission  
Pump, pump it up play it real loud  
jumping up and down come up from the ground

Jumping up and down to the beat  
Fell all the heat  
Dripping sweat all down my veins  
Going insane  
Disco dancing feel the dreams  
We'll move the streets  
Constantly you'll feel my beat  
Fall before me

I cant take it why don't you get up and listen  
put on the base I'm gonna take on a mission  
Pump, pump it up play it real loud  
jumping up and down come up from the ground

I cant take it why don't you get up and listen  
put on the base I'm gonna take on a mission  
Pump, pump it up play it real loud  
jumping up and down come up from the ground

Take it, take it all away  
Do it, do what I say

Shake it, shake it, don't break it  
Uh Uh

Take it, take it all away  
Do it, do what I say  
Shake it, shake it, don't break it  
Uh Uh

Take it, take it all away  
Do it, do what I say  
Shake it, shake it, don't break it  
Ah Uh

I cant take it why don't you get up and listen  
put on the base I'm gonna take on a mission  
pump, pump it up, play it real loud  
jumping up and down coming from the ground

I cant take it why don't you get up and listen  
put on the base I'm gonna take on a mission  
pump, pump it up, play it loud  
jumping up and down coming from the ground
