"In Between Dances"

There's room at my table, why don't you pull up a seat?
The music's inviting but I'm staying off of my feet
The floor's getting crowded, but I don't wanna take part
I bet you can guess it's got something to do with my
heart

(chorus)

I could sure use your company now

But don't be mistaking my smile

I'm only in between dances

Sitting it out for awhile

The partners are chosen, look at them waltzing away

The tempo gets slower, closer and closer they sway

I've had my moments when I could get lost in the sound

But when the song ended the one in my arms let me
down

(chorus)

Have you been in my shoes?

I search your eyes for signs

Will you remain, remember my name

After it's closing time

(chorus)

I'm only in between dances

Sitting it out for awhile
