Scream [x2]

Scream [x2]

I can't deny

What I feel

But should I

Set it free?

-Let her go

-No let her not

-Yes I will

-No she's too hot

Screams of frustration

I can't decide

What to do

What do I want

I have no clue

I don't know

Scream [x2]

No way out

No escape

Times run out

Leave or take?

-Let her go

-No let her not

-Yes I will

-No she's too hot

Screams of frustration

I can't decide

What to do

What do I want

I have no clue

I don't know
