I'm gonna ride
Up to the tip top
Never stop
Always drop
One shot
One stop
Play the punk rock
And when the cops stop
It's a timeless joint set to one drop

And all the girls
You were the one
You stood above everyone
You took it hard
Girl you never had fun
So drop your bag
Girl please don't run
Ride it up
Tie it up
Drink it up down
Tip it up
Sit it up
Kick it Uptown
And tell me exactly girl
When you're comin round
Cause I'll wait for you girl
I won't back down

Girl I only want
What was best for you
Girl I only want
What was best for you
I only wanted what was best for you
I only wanted what was best for you
I only wanted what was best for you
I only wanted what was best for you

This girl's a real heartbreaker
Different dialects
Needs a translator
I make a choice...
Not wait for later

Life goes on
No I don't hate her

Hey I get it
I got it
On down
Roll it
Hit it
I kick it around
Haha I kick it around
But my feet remain planted
On the fuckin ground
One time heroin
One time gone
First time against it
Then you sing along
That's what happens
When your life goes wrong
I got nothin but
Truth in my song

Girl I only want
What was best for you
Girl I only want
What was best for you
I only wanted what was best for you
I only wanted what was best for you
I only wanted what was best for you
I only wanted what was best for you
