"Wave Hello"

Visit "[Wave Hello](#)" on MotoLyrics.com

I just love you to death
So you promised for life
Just hope my intentions hold sway
From this place that I stand
Im afraid of such plans
Things never turn out my way
Its this duality
Thought to reality
Some bug will get in the way
Some days it feels
That I will never find land
Just spin around on the wheel
Wave hello
Shame we wont stay
Wave hello
Shame we wont stay
Weve been here before
And well meet here again
When we go through the end of the line
So love me to death
Stand by you in life
A love that's tested in time
Welcome aboard the burning man
Hitch a ride on the burning man
Shame we wont stay
