Giver of life, You never change
All that is perfect comes from You
Your wonders never cease
Not even life, not even death
Nor any power in heaven or earth
Could separate us from Your love
You are good
And Your mercies last a lifetim
You are good, always, always
Everyday, Your love is never ending
For You are good, always always
Freely you give
New every day
Your mercies will never fail
So great is Your faithfulness!
Your love is kind, Your love is pure
Your love will always persevere
Every blessing comes from You
You delight to pour Your goodness down
You delight to pour Your goodness down
